**Seat**

Contoured plywood saddle seat is made from eucalyptus wood and is 1/2" thick. Surface of shell is high pressure laminate (HPL) from Formica. Available in white, natural or espresso colors. Shell is secured to steel frame with metal inserts and 4 bolts.

Optional Upholstery

Foam is 1/2" thick, 1.8# with a 60ILD density. Foam is attached to 1/4" plywood seat then upholstery is pulled and stapled to underneath. Upholstered seat has T-nuts and is secured on top of plywood shell and secured with screws underneath seat shell. Plywood seat is FSC certified.

Frames

Legs are 12-gauge 3/4" round tubed steel. Legs form a center post and are welded to a 12" x 7" contoured steel plate that's 4.75mm thick. Steel plate secures seat to frame with 4 bolts that fasten into metal inserts on plywood shell.

Stools have 3/8" round solid steel footrest welded to legs. Footrest is connected with 15" steel rod welded to

Frame Finishes

Frames are available in sandtex black using baked on electrostatically process. Powder-coat is VOC free. (No Volatile Organic Compounds)

Glides

Non-marring black nylon, 1/8" H & 3/4" diameter. Glides are secured into tubed frame with ribbed retention.

Weight Ratings

ANSI-BIFMA up to 300 lbs.
