The novel coronavirus (COVID-19) pandemic was declared a national emergency this Spring.

GSA's Disaster Purchasing Program allows state and local governments to buy supplies and services directly from all GSA Schedules to facilitate disaster preparation, response, or major disaster recovery.

As a result, KFI Studios 2 GSA contracts (GS-28F-0023W & GS-28F-0052W) fall under the Disaster Recovery and allow state and local governments to purchase all KFI products on each schedule.

"The term, 'State or local government' includes any State, local, regional, or tribal government, or any instrumentality thereof (including any local educational agency or institution of higher education)." Educational Institutions include:

- Local elementary, middle, and high schools operated by public school boards;
- Public colleges, community colleges, technical colleges; and
- Public universities that provide at least a two-year program that offers a degree or offers credit toward such a degree.

The term does not include contractors or grantees of state or local governments. If there is a question related to eligibility, you may submit an eligibility request to GSA. GSA will issue a formal determination on behalf of the requesting entity that clearly outlines access to GSA sources of supply.

Entities that clearly fall under the definition of state and local government do NOT need to request an eligibility determination.

State and local buyers are responsible for following the ordering and competitive procedures outlined by their local procurement regulations.
