## VOODOO | DESIGNED BY QDESIGN

The Voodoo collection features a barstool plus a series of tables including a ping pong table. The industrial look of metal mixed with the warmth of the beech wood tapered legs brings contemporary style with a relaxed feel. On the barstool, the organically curved felt shell and upholstered cushion softens the wood and metal. The table is available in standing height, which pairs perfectly with the barstool, and seated height, which will pair well with other multipurpose chairs.
