-

Bleachable Upholstery

Please refer to the fabric manufacturer's guidelines:

- [CF Stinson Rapid Upholstery Solutions for Healthcare](#)
 - [Momentum Approved Cleaners](#)
 - [Mayer Fabrics Bleach Cleaning Guide](#)
 - [Ultrafabrics Cleaning Guidelines](#)
-

Polypropylene

- Clean with a diluted 10:1 water to bleach solution.
-

Frame Finishes

- Powder Coats: Clean with a slightly damp cloth using a mild solution of soap and water. Bleach cleanable with 10:1 ratio of water to bleach.
 - Chrome: Clean with a high quality chrome cleaner to ensure the brightest finish. Bleach cleanable with 10:1 ratio of water to bleach.
 - Aluminum & Stainless Steel: Clean with a damp soft cloth using a mild soap solution or glass cleaner. No abrasive cleaners should be used. Bleach cleanable with 10:1 ratio of water to bleach.
-

Laminates

- Please refer to [Wilsonart's cleaning guidelines](#).
-

PET Felt

- Most stains can be cleaned with water. Apply water on the stain and blot with a clean towel. Reapply water as needed.
 - For tough stains, use a mild cleaner or detergent. A diluted 10:1 water to bleach solution may also be used.
-

Solid Wood

- Wood top coat is resistant to most household chemicals (ex. 409, Fantastic, Murphy's or Pledge). We recommend trying a small or hidden spot first with any cleaner before using on entire surface.
 - Avoid hot products on surface.
 - Clean spills with mild soap and water using a damp cloth. Apply solution with spray bottle, wipe clean, and dry with soft cloth.
 - Avoid harsh or abrasive cleaning materials.
 - Do not use furniture polish containing oil, wax, or silicone which can produce an oily film or haze.
-

Outdoor Furniture

- Cleaning and maintenance of outdoor furniture is key to its durability. Use this method for a quick clean up throughout the season. Use a mild bleach solution for stubborn stains.
 1. Mix mild dish soap with warm water.
 2. Use a clean cloth to wipe soapy mixture onto surfaces, cleaning off excess dirt.
 3. To sanitize, mix 1/3 bleach and 2/3 water and then apply bleach cleaning solution with clean cloth.
 4. Rinse thoroughly.
-

Umage Furniture

- Please refer to [Umage's care guidelines](#).
