

KFi STUDIOS

AVALON | DESIGNED BY UNION DESIGN

The Avalon collection features a lounge chair, chaise lounge, and coordinating accessories. Crafted with soft, sculpted forms set against a thin steel frame, its distinctive split design for the seat and back is visually light and engineered to minimize packaging size, reducing its carbon footprint. Choose to upholster Avalon in the standard 3D knit cover made from post-consumer recycled plastic or opt for traditional upholstery. Both the lounge chair and chaise can be paired with optional accessories – a swivel table and/or screen with a side table and coat hook – offering adaptability for privacy and additional table space, ideal for work or device usage.

FEATURES

- Clean, minimalist design
- REPREVE® recycled polyester 3D technical shape knit created in a zero waste process
- Ergonomic seating for maximum comfort while lounging
- Durable steel frame construction
- Choose between 3D knit or traditional upholstery
- Swivel table has 360° swivel, integrated device stand, and is height adjustable from 25"-30"; can be left or right mounted
- Privacy screen comes with side table and coat hook; can be left or right mounted
- Knock down assembly
