KOOL

The Kool seating line is an economical collection of side chairs, stools, task seating, and beam seating. Hard working & flexible, Kool is designed to perform in demanding environments such as educational and government spaces. The perforated back offers enhanced breathability while also giving a sense of airiness which pairs perfectly with the soft rounded edges of the seat and back. Style the Kool chair in a single color for simplicity or pair the seat and back in contrasting colors for a highly customized look.
