

KFi STUDIOS

CALM | DESIGNED BY UNION DESIGN

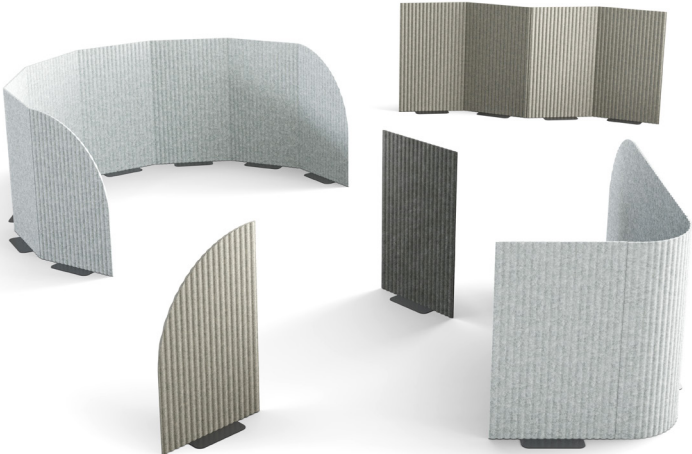

Featuring a distinctive fluted design pressed from recycled plastic felt, Calm screens function as versatile freestanding panels, providing personalized privacy wherever needed. The screens can also be used as a modular system by connecting multiple panels together for customized space divisions tailored to any environment. Calm is designed to seamlessly integrate with the Conversa modular lounge collection, enhancing privacy within a range of seating layouts and configurations. Whether for focused work zones or collaborative environments, Calm screens provide adaptable privacy solutions for dynamic spaces.

FEATURES

- Made from recycled plastic felt with a pressed fluted design
- Available in two straight screens and one curved screen
- Straight screens come with a steel base so they can be used on their own; curved screen connects to either straight screen
- Screens slide over base for easy assembly
- Connect multiple screens using joining brackets for creating a variety of configurations
- Integrated slots along panel edges to easily insert joining brackets
- Sample configurations include Zigzag, Round, Star, L, U, X, and T-shaped
- Integrates seamlessly with the Conversa modular lounge system, either in between seats or freestanding around any configuration
- Curved screen is designed to fit around Dotti lounge chairs
