EMBER | DESIGNED BY QDESIGN

Ember creates a place for people to come together in the workplace to connect, work, and socialize. The tapered pedestal base is wrapped in high pressure laminate for a modern aesthetic or PET felt for a softer look. Bases are available as single, double, and triple columns in seated and standing heights. For added functionality, power options can be added to easily charge your devices during meetings, making it well-suited for conference rooms and collaborative spaces.

FEATURES

- High pressure laminate surface on base
- Optional PET felt acoustic cover to wrap around base
- Cable management through column
- Black steel plinth protects base and provides cable pathway
- Adjustable glides
- 1.25” thick top with HPL surface and matching 3mm edge
- Round, squircle, and racetrack tops
- Available in 26 Wilsonart HPL colors. All other Wilsonart & Formica colors available with extended lead times.
- Power options available
